What is Particle Studios?

Particle Studio is a premiere, soundproof studio space for video and photo production with locations in Seattle and Portland.

Our studios are outfitted with L-shaped cyc walls, industry grade lighting, high-end finishes, fully-functional model kitchens, and on-site equipment rentals.

At our studios, you'll be welcomed with powered grids, ground floor load in, and a staff that's eager to assist with any needs your production may have.

WHY CHOOSE PARTICLE

Our studios were thoughtfully built from the ground up (literally) to fulfill all production needs. If you want to impress your client, keep your talent comfortable & happy, and provide a location that your crew will love to work in - we guarantee Particle will check those boxes.

THERE'S A PARTICLE CREATIVE TOO, YEA?

Yes! Particle Creative is the agency sibling of Particle Studio. [Find out more here!](#)

Our Four Keys to Success

	WHAT WE ASK
1. Film only in the Designated Shooting area*	*exceptions possible with written permission contact hello@particlestudios.com or your Studio Attendant
2. Treat the space with respect	<input type="checkbox"/> No stepping on the cyc curve, etc. <input type="checkbox"/> I've read the Terms & Conditions! <input type="checkbox"/> If I don't, understand potential charges.
3. Take responsibility for crew and talent	<input type="checkbox"/> I agree to inform cast and crew of expectations.
4. Make something awesome	<input type="checkbox"/> You already know! 🙌

Why do we ask this?

We believe in the highest quality production experience, fair labor practice, and top-tier production. We want each production to be smooth, seamless, and fun.

To do that a clear shared understanding of guidelines is important. This packet contains important ways we can work together to ensure a mutual understanding of the expectations of shooting at Particle.

Terms & Conditions: Additional info

AVOID DAMAGES*

Do not step on the curve of the cyc. This can cause damage to the cyc and result in a repair fee that will be added to your final invoice.

No smoking inside the building.

No painting indoors. We have available outdoor space for painting. In cases of inclement weather, the loading bay may be used with drop cloths.

*Damages above normal, reasonable wear and tear or resulting from negligence or failure to follow our guidelines may result in fees.

PERMISSION REQUIRED^

Moving or rearranging of furniture.

Children allowed with advance permission. If you anticipate having young children on set you are responsible for their actions and any damages incurred.

Animals also only allowed with advance permission. On site, it is the responsibility of the owner to monitor, care for, and clean up after their pet.

^We expect all productions to utilize the studio and adjoining space for their intended purposes. If you would like to alter the usage of a space within the studio, prior approval from a Particle Team Member is required. Any inappropriate use of space outside of it's intended purpose may be subject to a fee.

AFTER BOOKING

Restore the studio to its original condition when your booking ends. All equipment and aspects of the studio should be returned in the same condition it was received. This means the rental is responsible for an acceptable baseline cleaning of the space.

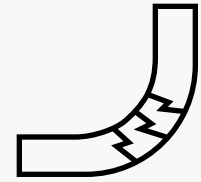

Potential Fees

WHAT COULD I BE CHARGED FOR?

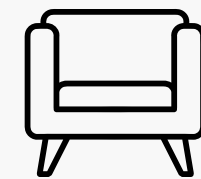

No one likes hidden fees. We don't either - so we don't charge any!
That said, it's important to get all those ~possibilities~ out of the way.
So if there were any issues, don't say we didn't warn ya ;)

Damaging the Cyc Wall

Repair costs can range from \$100 - \$400 depending on the extent of the damage. This fee covers labor time, cost of materials, and any potential time the cyc can't be used due to damage.

Moving Furniture We know our studios are beautiful 🍷

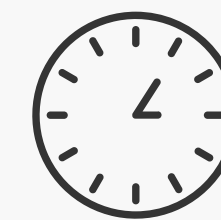

That said, furniture cannot be moved or used as props. If you would like to use it as a piece on set, please let your studio attendant know and they can move the furniture and provide you with a rental quote for use of the item.

Cleaning

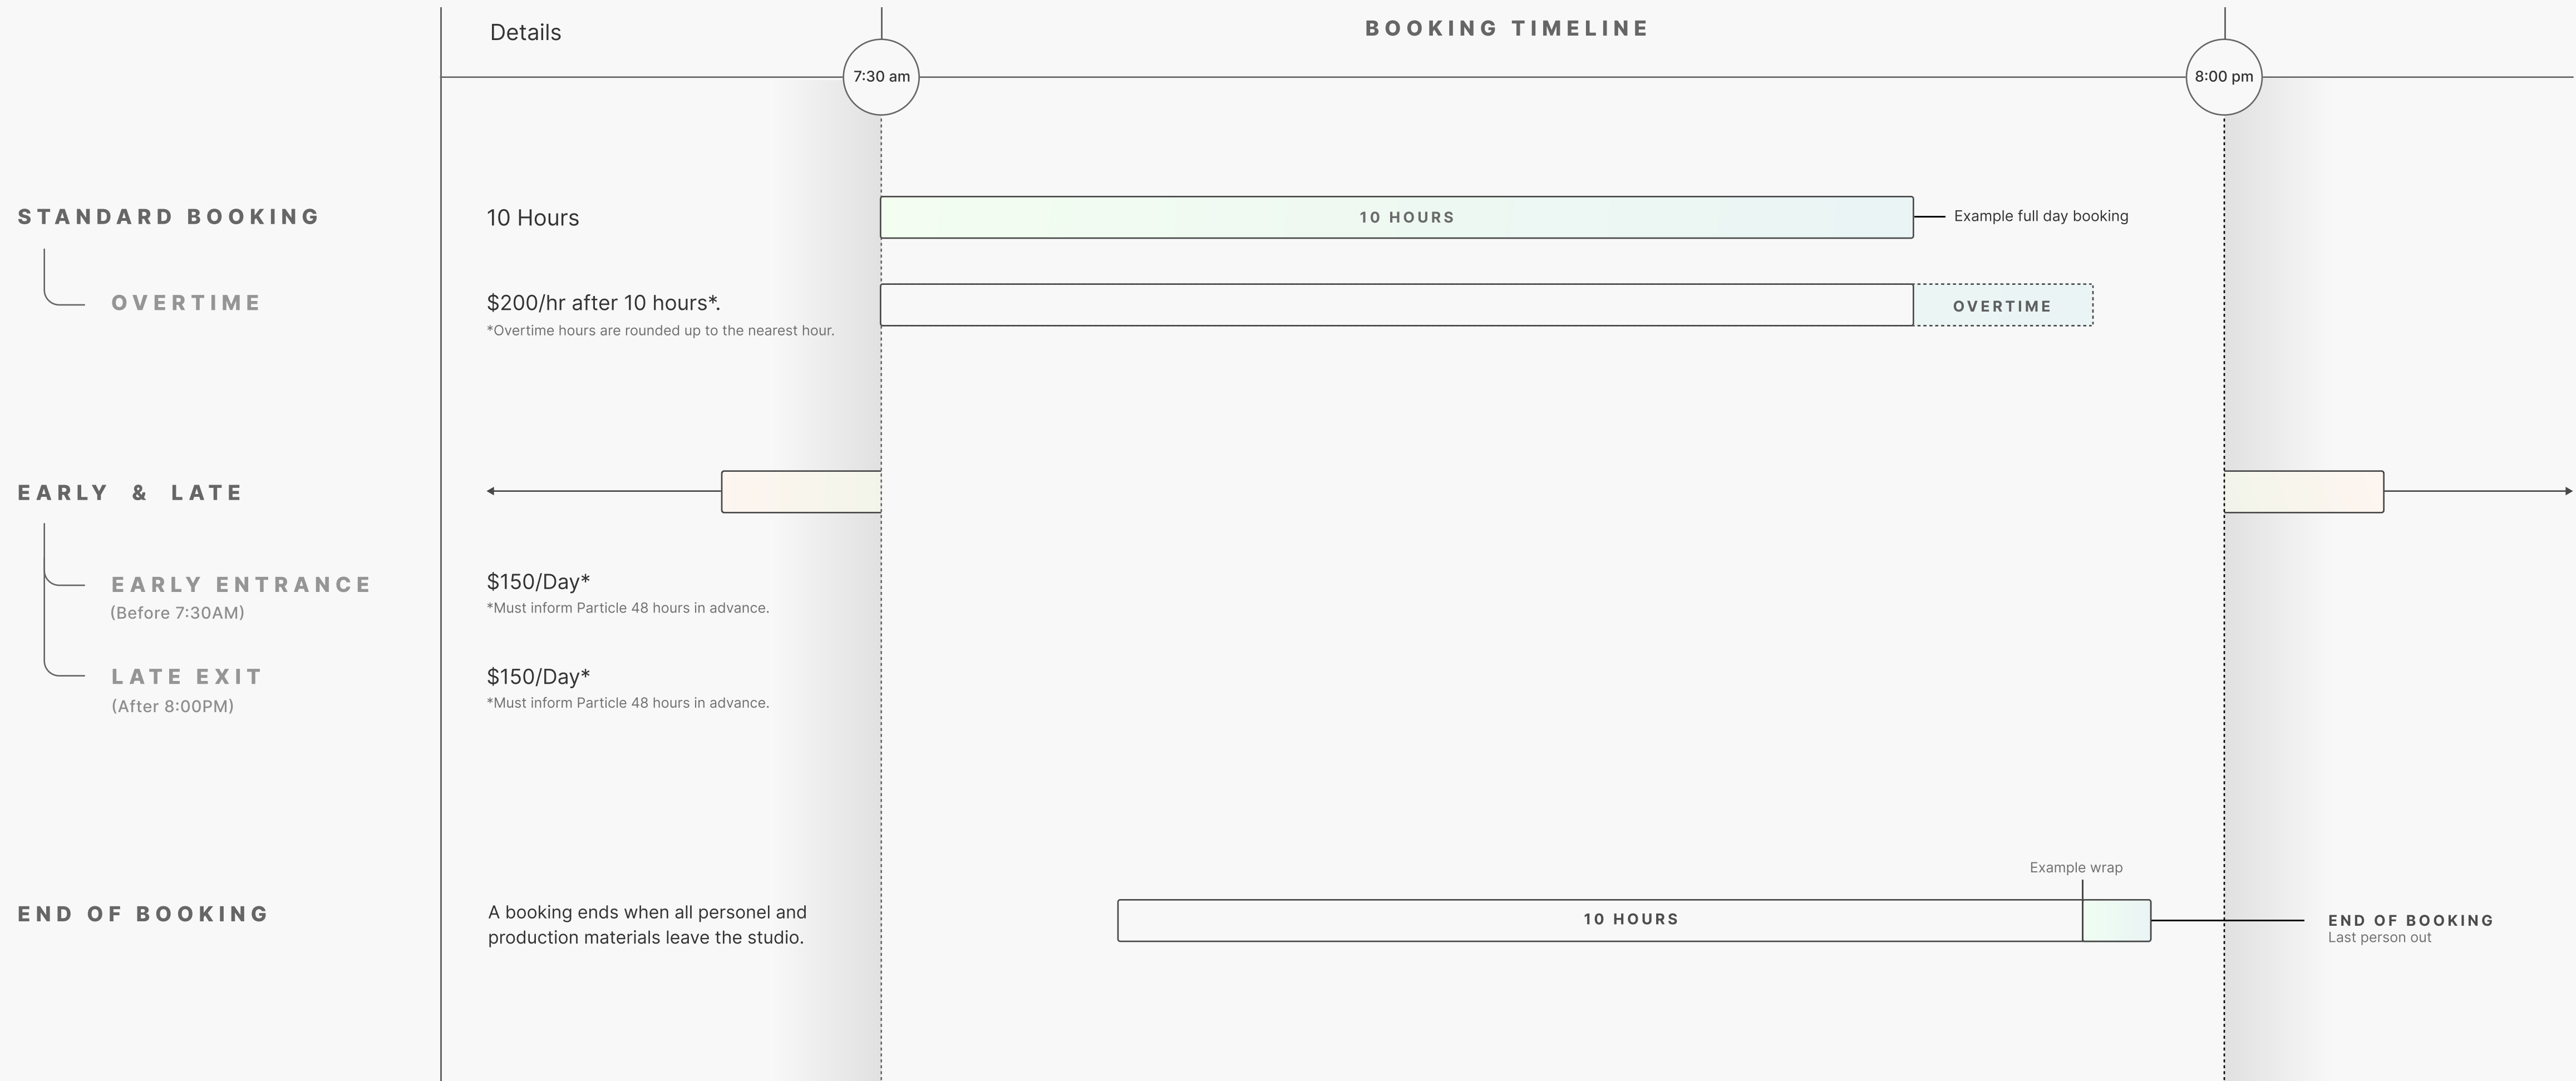

We don't charge a cleaning fee! (it's included in the day rate). That said, if you leave the place trashed and thrashed, we're going to need to pay someone to clean it up. Cleaning fees can range from \$350 - \$500.

OT & Early/Late Arrivals

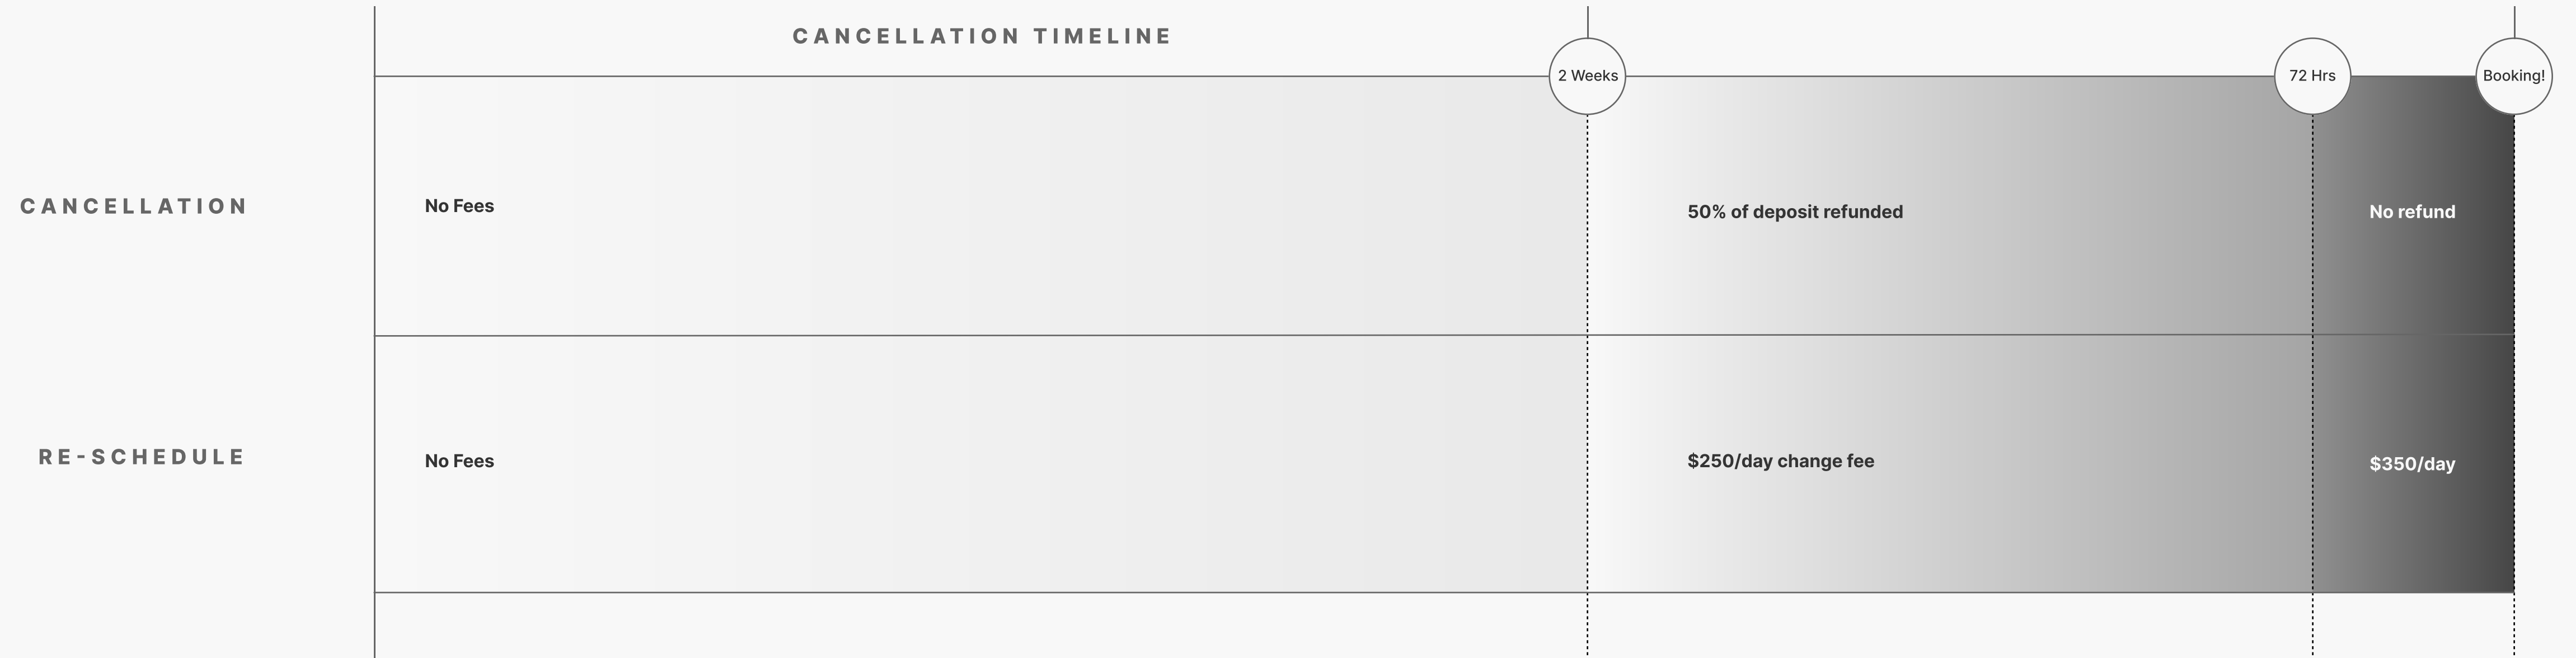

We explain in more detail on the following pages, but there's a fee if you want to arrive super early, stay super late, or stay longer than your 10 hours.

Terms & Conditions: Hours & Overtime

Terms & Conditions: Cancellation

Our Terms

“HOLD”

We’re happy to place a hold for your production, but as soon as the date(s) are challenged by another production, you have 24 hours to place a deposit to lock in those dates.

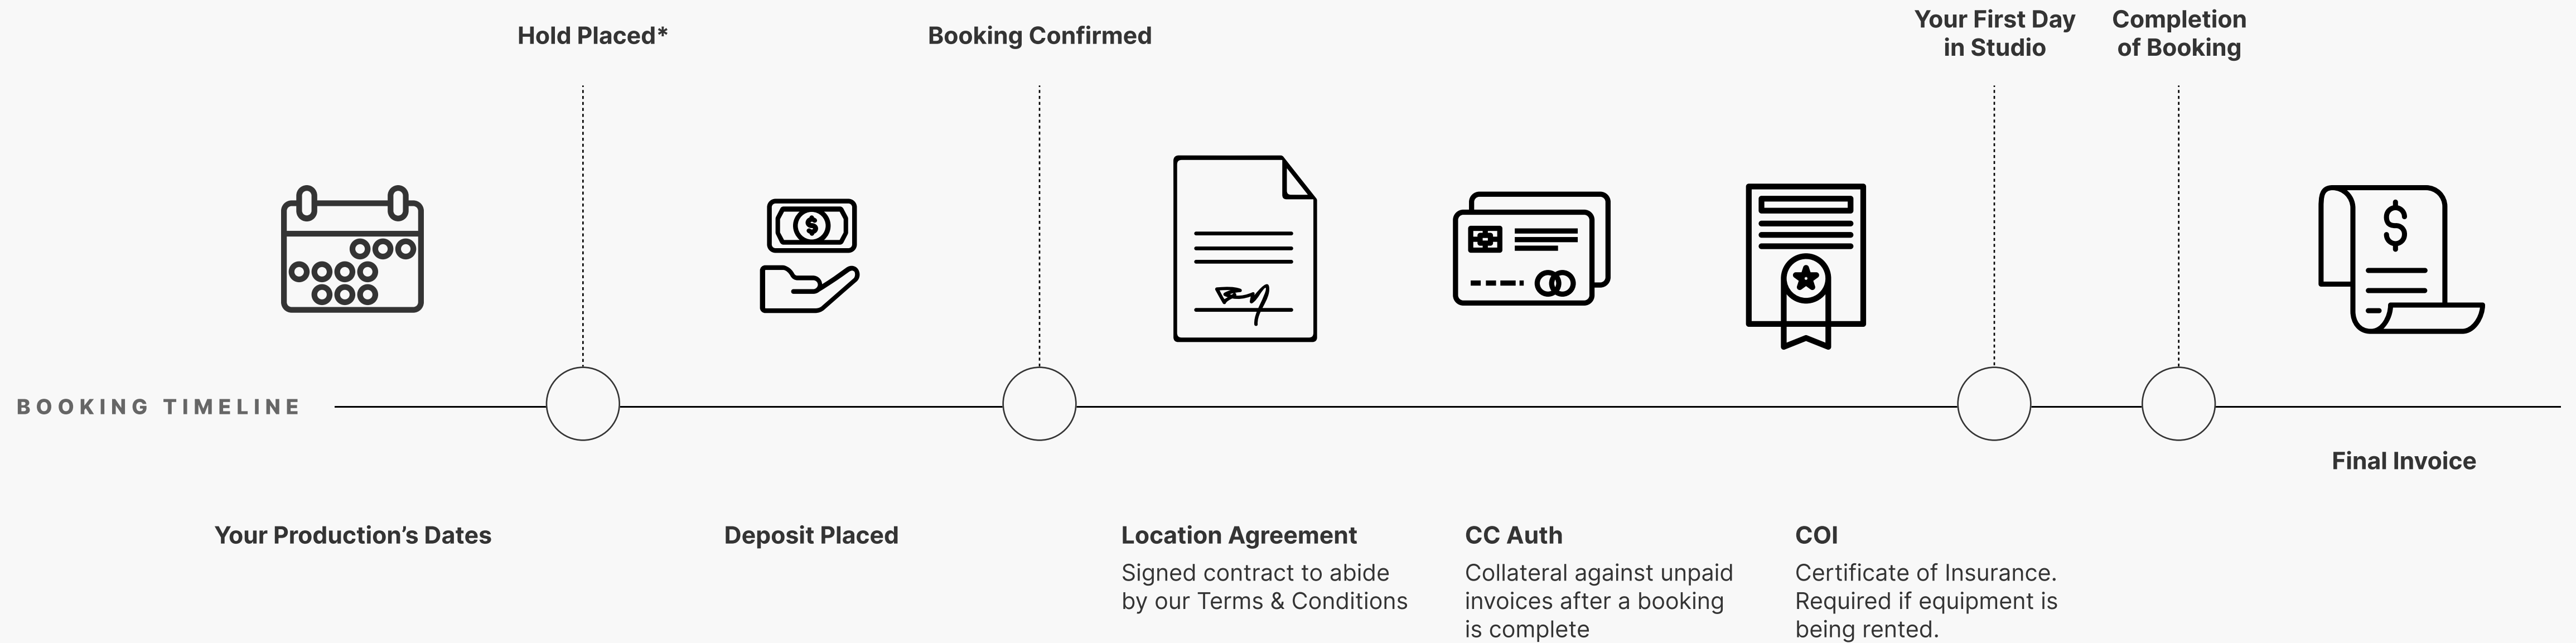

“BOOKED”

Studio rental dates are considered “booked” when a 50% deposit of the total studio rental costs (not including additional amenities, gear, or services) is paid.
